Information Systems graduate (GPA 3.96) with hands-on experience in campaign performance analysis and cross-team collaboration at Emtek Digital, managing 5+ campaigns with 9.8M+ impressions. Skilled in SQL, Python, and Power BI to turn data into actionable business recommendations.

EDUCATION

Gunadarma University **Sep 2022 - Aug 2026**
Bachelor's Degree in Information Systems, **GPA 3.96/4.00**

EXPERIENCE

Programmatic Operations Intern - Emtek Digital **May 2026 - Aug 2026**

- Managed 5+ end-to-end ad campaigns in Google Ad Manager across Vidio and KLY inventories (Exxon, Samsung, Sweety, IQOS, Rasa Masa), generating 9.8M+ impressions.
- Compiled campaign performance reports in Google Sheets, surfacing insights that drove delivery optimization and CTR up to 2.57%.
- Screened and proofed ad creatives against client specifications, maintaining 100% delivery rate against booked targets.
- Collaborated with Sales and Product teams to optimize programmatic ad delivery.

PROJECT

Capstone Project – Asah Program led by Dicoding **Sep 2025 - Jan 2026**

- Recognized as a Top Capstone Project in the Machine Learning Cohort, Asah Program led by Dicoding.
- Cleaned the Online Retail II UCI dataset and engineered RFM features; built a K-Means model (Scikit-learn) with k = 5 via Elbow Method and Silhouette Score of 0.600, segmenting customers into 5 behavioral profiles.
- Visualized RFM cluster distributions with Seaborn, identifying segments from high-value actives to at-risk and churned customers. Link: https://visualizationcapstonea25cs282.streamlit.app/

MoCal: LLM-based Calorie Estimation from Free-Text – Undergraduate Thesis **Jan 2026 - Apr 2026**

- Built a web app (FastAPI, React) that estimates calories from free-text Indonesian/English input, using Groq API (LLaMA 3.1-8b) to extract food items and portions.
- Designed a 4-layer food matching pipeline (exact match → RapidFuzz → USDA API → LLM estimation) over a PostgreSQL database of 2,955 food entries.
- Evaluated with MAE of 92.79 kcal (40 samples) and SUS score of 81.55 (50 respondents); token-efficient prompting reduced token usage by ~36.5%. Deployed on Vercel: https://mo-cal.vercel.app/

CERTIFICATIONS

- Sertifikasi Kompetensi Okupasi Data Analyst - Badan Nasional Sertifikasi Profesi, 2026
- Belajar Machine Learning untuk Pemula - Dicoding Indonesia, 2025
- Belajar Fundamental Deep Learning - Dicoding Indonesia, 2025
- Membangun Sistem Machine Learning - Dicoding Indonesia, 2025

SKILLS

- Hard Skill : Data Analysis, Data Visualization, Exploratory Data Analysis (EDA), Statistical Analysis, Campaign Performance Reporting, Machine Learning (Supervised & Unsupervised Learning), Clustering & Classification, Feature Engineering, Deep Learning, Model Evaluation
- Programming : Python, SQL
- Software : Microsoft Office (Word, Excel, PowerPoint), Canva, Visual Studio Code, Power BI, Tableau, Looker Studio, CapCut, Notion, Docker, Jupyter Notebook, Google Ad Manager, Google Workspace
